Null safety

1

Dependencies/Versions

All dependencies and version numbers are defined in [pubspec.yaml](#).

e.g.

```
environment:  
  sdk: ">=3.0.0 <4.0.0"  
  flutter: "3.10.4"
```

Android

For Android devices, we have following settings:

```
compileSdkVersion 33  
minSdkVersion 21  
targetSdkVersion 33
```

Null safety

Our flutterclient uses [null safety](#) and all dependencies use null safety.
