

Table of Contents

A Combobox or Linked Cell Editor usually opens a popup which shows possible values. You can choose one value.

Our standard implementation looks like:

But we also have different styles: `f_as_bottomsheet`

or as popup: `f_as_popup`

The popup has different options:

- `f_popup_jump`
- `f_popup_fade_in_bounce` (default)
- `f_popup_fade_in_down`
- `f_popup_fade_in_roll_down`

Short videos:

Not supported	Not supported	Not supported	Not supported	Not supported
The bottom sheet variant.	As popup with <code>fade_in_bounce</code> .	As popup with <code>jump</code> .	As popup with <code>fade_in_down</code> .	As popup with <code>fade_in_roll_down</code> .
