Table of Contents

There are some fully functional example applications for JVx. They are hosted on different servers and locations. It's easier to find the right location with the following listing:

- The first app (First steps with JVx - CRUD with database table)
  Download, Project page, Documentation

- **ERP Demo** (“complete” ERP System, with Java Webstart, Vaadin UI, mobile app)
  Download, Project page, Demo Vaadin UI (User = manager, Password = manager), Demo Webstart (for old browsers or openWebstart)

- **KitchenSink**
  Source Code

  

- **Showcase** (JVx Component overview, Tree, Lazy loading, Master/Detail)
  Download, Source Code

  

- **Packung!** (Soccer betting game)
  Source Code

  

In addition to the example projects, we have more projects that might help you:

- **JVx Storages** (Storage for e.g MS Exchange Access)
  Download, Project page

- **AESStorageExport** (Storage for CSV Export as encrypted ZIP archive)
  Project page

- **DropboxStorage** (Storage for accessing Dropbox files/folders)
  Project page

- **vert.x** (Connection implementation for vert.x)
  Project page

- **react UI** (UI implementation with react)
  Project page

- **react UI example** (example application for react UI)
  Project page

- **flutter UI** (UI implementation with flutter)
  Project page

- **flutter UI example** (example application for flutter UI)
  Project page

An overview of all repositories:

- SourceForge
- GitHub
